CODECABIN

We aren't just a bunch of people on a country getaway,
behind the relaxed facade we offer a unique learning experience.

If Umbraco is important to your business,
here's why attending CODECABIN could be a great investment.

UNBEATABLE VALUE

The costs of attending a regular conference can soon stack up, but with CODECABIN food, drink and accommodation are all included in the $550 ticket price. All you need to pay for is the ticket and any travel expenses.

NETWORKING

Let's face it, networking is hard. Even at events with hundreds of people, it can be easy to come away having spoken with nobody. With CODECABIN though, there are just 12 attendees all living under one roof meaning it's impossible not to get to know the whole group.

FOCUSED TIME

Immersion into our distraction-free countryside environment allows attendees to achieve the kind of deep, focused learning that delivers maximum value - something hard to replicate when juggling daily responsibilities.

REASSURANCE

No matter how skilled your team is, it's easy for knowledge / processes to become stagnant. At CODECABIN we bring together people from a variety of disciplines allowing attendees to compare and learn from each other helping to ensure the approaches they follow are still relevant.

LEARNING GUARANTEED

With most conferences it can be a bit of a lottery as to whether there will be topics of relevance to your dev team, but with CODECABIN the topics and agenda are defined and run by the attendees, ensuring there is always something to learn.

DIVERSITY

At CODECABIN we hand pick the most diverse group of people possible ensuring there is a mix of differing skill levels, disciplines, ethnicities and gender. It's this diversity that brings unique insights into each discussion topic.
